

# SERVICE BULLETIN

**Machines/Models:** All TM12  
Work Platforms

**Serial Nos.:** 1141 to 1492

Page 1 of 2

**SERVICE BULLETIN:** 95.2. This installation is **mandatory** and should be completed at the next service interval.

**DATE:** April 1, 1995

**PURPOSE:** Notification of requirement to install four (4) grease fittings in the mast to permit periodic lubrication and instructions for installation.

**OPERATION REQUIRED:** Install four (4) grease fittings per drawing and grease the mast bearings after their installation and every 90 days thereafter.

**PARTS REQUIRED:** 1 grease fitting installation kit, P/N: 30761-000

Qty.	Description	Part Number
4	grease fittings	13336-011
1	1/4 - 28 UNF tap	30761-002
1	#3 drill bit	30761-001

**REIMBURSEMENT:** Installation will take less than thirty (30) minutes. UpRight will reimburse you at your shop rate for installation time up to thirty (30) minutes. UpRight will also reimburse you for reasonable travel time at the rate of USD \$25.00 per hour. Reimbursement will be made upon receipt of your completed warranty claim.

## PROCEDURE:

### Caution

Use appropriate eye protection while performing the drilling operation

1. Mark and drill, per the drawing on page 2, two (2) holes on each side of the mast.

**Note: Drill through outer mast only.**

2. Tap holes.
3. Install grease fittings.
4. Grease with one stroke of hand grease gun.
5. Lower platform and test operation.
6. Repeat greasing during each 90-day scheduled maintenance cycle.
7. Place this Service Bulletin with your service manual and incorporate the procedure in your regular maintenance schedule.
