

Service Bulletin: Machine re-rating

Reference: SBU09.06

Date of Issue: 29th July 2009

Affected Machines:	AB38	AB383301 to AB383977 AB384000 to AB384250
	X32	50095 to 52000 53000 to 53099
	MX19	50440 to 52099 53000 to 53200 17074, 17837, 17852, 20479, 40075, 40076, 40108, and 40113

Purpose:

You are probably aware that a new revision of the European Machinery Directive (2006/42/EC), which governs the design and manufacture of powered access products, comes into force on 29th December 2009.

This has led us to review our product range, to demonstrate machine compliance with the revised specifications.

Our review has resulted in a small number of changes to the rating of some vehicles manufactured by UpRight Powered Access, and we have decided that it would be appropriate to backdate some of these changes as shown below:-

- **MX19** - Outdoor maximum wind speed rating changed from Beaufort 6 (12.5 m/s) to Beaufort 4 (7 m/s).
- **X32** - Outdoor maximum wind speed rating changed from Beaufort 6 (12.5 m/s) to Beaufort 4 (7 m/s).
- **AB38** - Number of persons rating changed from 2 Persons indoor/2 Persons outdoor to 2 Persons indoor/1 Person outdoor.

These changes should be implemented for machines shown in the serial ranges above. If you have purchased one of these machines then please contact Upright for further instructions.

Technical support:

For further instructions please contact the Upright Quality Dept.
